

MICRO-PAK 100% RECYCLED PLASTIC RESIN
A Practical Solution for Brands to Transition to 100% Recycled Packaging

In 2023, we opened The Micro-Pak Plastic Recycling Factory in Hubei, China which produces the highest quality GRS-certified 100% post-consumer recycled resin in the most sustainable manner possible.

100% Recycled Packaging

Your existing packaging suppliers can use our resin to make up to 100% post-consumer recycled polybags and other packaging materials (mailers, films, wraps etc.) without changing their production processes.

High Quality Resin

=

High Quality End Products
(clear polybags)

Environmental Management

Our resin is manufactured in the most environmentally friendly way possible: GRS 4.0, ISO 14001, ISO 9001, ISO 50001, SMETA 4-Pillar, ZDHC Supplier to Zero Level 1.

The factory is equipped with advanced water and air emissions treatment equipment.

Traceability

Transaction Certificates via GRS means we can trace the plastic to ensure your packaging is made from genuine recycled material
